### Call:

It is an honor for us to name the place in Greiz/Germany after István. In the intersection area, a public square will be lovingly named after István Jeszenszki, a bronze monument to Istvan Sky and a seating area will be created. In the conversion concept for Victor Dietel's residential and commercial building, we tried to take all the necessary measures into account in order to secure the long-term existence of the residential and commercial building. With your support and acceptance, we would like to have constructive discussions with you about implementing the vision.

### Reason:

Let István's life's work live on in love! With your signature you will help us to put our vision into practice.

Thank you for your participation!
